TDPO asks life sentence for child abusers

Following its investigation into the tragic killing of an 18-month old baby, the Tainan District Prosecutors' Office ("TDPO") has charged suspects Lee, Hsueh, and Ho with intentional battery, physical and mental abuse, and manslaughter of a minor child. In light of the seriousness of these charges, TDPO is seeking a heavier life sentence for each suspect.

Because the victim's mother, Jane Doe, is under 18, her case has been transferred to the Taiwan Tainan District Court Juvenile Courtroom for further investigation.
